

At Kutch Copper Limited, we acknowledge that combating climate change requires collective action and shared responsibility. We are committed towards mitigating our carbon footprint and promoting sustainable practices throughout our operations. The policy outlines our dedication to environmental stewardship and sets actionable steps to reduce our carbon footprint.

To achieve this, Kutch Copper shall strive to:

- Comply with all applicable environmental laws, regulations and standards related to climate change mitigation and adaptation.
- Invest in energy efficient technologies to reduce our carbon footprint.
- Regularly monitor and report our emissions and implement measures to minimize them across all operational areas.
- Integrate climate considerations in our decision-making processes and business strategies.
- Minimize waste generation, promote recycling and reuse initiatives, and implement sustainable water management practices.
- Prioritize the use of environment friendly materials and products in our operations and supply chain.
- Assess and address the risks and vulnerabilities of our operations to climate change impacts, including extreme weather events.
- Engage with our employees, suppliers, customers, and local communities to raise awareness of climate change issues and foster collaboration on mitigation and adaptation efforts.
- Support and participate in industry initiatives, partnerships and advocacy efforts aimed at addressing climate change on a broader scale.
- Disclose transparently our progress towards our emissions reduction goals and climate related initiatives through regular reporting and communication channels.

The aforesaid policy shall be made available to all the relevant stakeholders. The policy shall be reviewed periodically for its appropriateness and updated as necessary.
