

At Kutch Copper Limited, we are committed to sustainable and efficient operations and minimizing our environmental footprint. As a responsible organization, we pledge to optimize energy use and continuously improve our energy performance.

To achieve this, Kutch Copper shall strive to:

- Comply with all applicable energy laws, regulations, and standards.
- Set objectives and targets to improve energy efficiency and reduce energy intensity by implementing energy conservation projects and adopting energy efficient technologies.
- Continuously seek opportunities to improve energy efficiency across all our processes and operations through regular monitoring, assessment, and implementation of innovative technologies and best practices.
- Integrate energy management considerations in our strategic approach and business decision making process.
- Promote usage of renewable, green, and clean energy sources.
- Collaborate with suppliers and partners to promote energy efficiency and sustainability throughout our supply chain.
- Engage with all the stakeholders to raise awareness about energy conservation and improving energy efficiency.
- Measure, monitor and review the energy performance in accordance with this policy at regular intervals.

The aforesaid policy shall be made available to all the relevant stakeholders. The policy shall be reviewed periodically for its appropriateness and updated as necessary.
