

At Kutch Copper Limited, we are committed to environmental stewardship and sustainable practices in all aspects of our operations. We will strive to continually improve our environmental performance for sustainable operations and responsible growth, by integrating environmentally sound technologies and best practices.

The company aims to be a Global Benchmark in value creation and excel in all areas of sustainability, to deal proactively with climate change issue by efficient use of natural resources and energy, promoting circular economy and minimize our environmental footprint.

To achieve this, Kutch Copper shall strive to:

- Ensure compliance with all applicable environmental laws and regulations and an endeavor to go beyond compliances.
- Reduce carbon footprint and promote usage of low carbon technologies.
- Minimize resource consumption by implementing efficient technologies and practices throughout our operations and promoting circular economy.
- Actively work towards protection and conservation of biodiversity in areas where we operate.
- Raise awareness among internal and external stakeholders to demonstrate their role and responsibility in implementing this environmental policy and promoting environmental sustainability.
- Work in partnership with internal and external stakeholders to implement improvement actions.
- Continually improving our environmental performance through regular review, assessment and implementation of best practices, technologies and management system.
- Regularly report on our environmental performance to stakeholders and regulatory authorities.
- Incorporate environmental criteria in decision making process across all the levels in the organization.

The aforesaid policy shall be made available to all the relevant stakeholders. The policy shall be reviewed periodically for its appropriateness and updated as necessary.
